

About Us

3s Agro Services Limited is an agricultural input company with its main focus on maize and vegetable seeds. The company's core mission is to enable the nation's agro based self-sufficiency objectives through representing quality agro-input companies. The company believes quality seeds are the primary and single most important factor towards agro productivity and economic emancipation of the farming community. 3s recognizes the importance of customer service and developing customer relations for a mutually benefiting long-term sustainable partnership.

3s represents globally and regionally accomplished companies. We continuously review our portfolio with the strategic intent to represent the *best-in-class* principles, thereby strengthening customer's confidence on us.

We currently represent the following global and regional principles:

- Corntech: Maize and Vegetables
- MAHYCO and Nuziveedu: Vegetables
- Savannah (A RiceTec company): Hybrid Rice

In 2008, the company expanded its agricultural input portfolio to include maize and vegetables.
